

Diversity Committee Mission Statement

Adopted Diversity statement: We at Kennard value the diversity of our students, their parents and family representation, siblings, administrators, staff, teachers, and volunteers. Doing so allows Kennard the opportunity to create an environment of learning, innovation, and collaboration; it supports Kennard developing particular diversity skills and tools for building a more inclusive academic and social environment for all students. We do this to ensure that we effectively equip our students with skills and experiences that will better enrich their lives and their Kennard experience.
